

**Listing of Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

1-48. (Cancelled)

49. (New) A personal care product comprising a nonwoven web, wherein the nonwoven web comprises a multicomponent fiber that contains a first component and a second component, the first component comprising a fiber-forming polymer and the second component comprising an active agent and a positive displacement carrier, wherein the positive displacement carrier comprises a water-soluble polymer and facilitates controlled migration of the additive to a surface of the fiber.

50. (New) The personal care product of claim 49, wherein the personal care product is selected from the group consisting of diapers, training pants, refastenable pants, absorbent underpants, feminine hygiene products, and adult incontinence products.

51. (New) The personal care product of claim 49, wherein the multicomponent fiber has a sheath/core configuration.

52. (New) The personal care product of claim 51, wherein the multicomponent fiber includes a core comprising the first component and a sheath comprising the second component.

53. (New) The personal care product of claim 51, wherein the multicomponent fiber includes a core comprising the first component, a first sheath comprising the second component, and a second sheath comprising a third component, the third component comprising an active agent and a positive displacement carrier.

54. (New) The personal care product of claim 54, wherein the positive displacement carriers of the second and third components have different active agent dispensing rates.

55. (New) The personal care product of claim 49, wherein the multicomponent fiber has a side-by-side configuration.

56. (New) The personal care product of claim 49, wherein the multicomponent fiber has an islands-in-the-sea configuration.

57. (New) The personal care product of claim 49, wherein the multicomponent fiber is wet spun.

58. (New) The personal care product of claim 49, wherein the multicomponent fiber is dry spun.

59. (New) The personal care product of claim 49, wherein the nonwoven web is a meltblown web, spunbonded web, bonded carded web, or coform web.

60. (New) The personal care product of claim 49, wherein the nonwoven web is a meltblown web.

61. (New) The personal care product of claim 49, wherein the nonwoven web is a spunbonded web.

62. (New) The personal care product of claim 49, wherein the active agent is selected from the group consisting of skin care agents, therapeutic agents, and cleansing agents.

63. (New) The personal care product of claim 49, wherein the active agent is a lotion, cream, or wax.

64. (New) The personal care product of claim 49, wherein the active agent comprises less than about 5% by weight of the second component.

65. (New) The personal care product of claim 49, wherein the active agent comprises less than about 3% by weight of the second component.

66. (New) The personal care product of claim 49, wherein the water-soluble polymer is selected from the group consisting of polyvinyl alcohol, sodium alginate, hydroxypropyl methylcellulose, chitosan, polyethylene glycol, tetramethylene ether glycol, polyvinyl pyrrolidone, and hydroxymethyl cellulose.

67. (New) The personal care product of claim 66, wherein the positive displacement carrier comprises a non-aqueous based polymer system selected from the group consisting of polyurethane, ethylene vinyl acetate, acrylic based polymers, chitin, ethylcellulose, and polyacrylonitrile.

68. (New) The personal care product of claim 49, wherein the first component comprises a fiber-forming polymer selected from the group consisting of polyolefins, polyesters, and nylons.
